

## **SEC Required Reporting for Routing of Client Orders**

INTL FCStone Financial Inc. (IFCF) has prepared reports pursuant to a U.S. Securities and Exchange Commission rule requiring all brokerage firms to make publicly available quarterly reports on their order routing practices. The reports provide information on the routing of “non-directed orders” — any order that the client has not specifically instructed to be routed to a particular venue for execution. For these non-directed orders, IFCF has selected the execution venue on behalf of its clients. Each report identifies the venues most often selected by IFCF, sets forth the percentage of various types of orders routed to the venues, and discusses the material aspects of IFCF’s relationship with the venues.
